DRC Systems Earns CMMI Level 5 Appraisal for Software Development And Enterprise Solutions

GIFT City, Gandhinagar, October 26, 2026: DRC Systems India Limited has announced that its Software Development and Enterprise Solutions division has achieved Level 5 appraisal under ISACA's Capability Maturity Model Integration (CMMI®) framework.

CMMI is a proven, outcome-based performance model and the globally accepted standard for improving capability, optimizing business performance and aligning operations to business goals. Our work and process have been validated by a credible third-party institution. DRC Systems India Limited has achieved this by following an established set of project management practices. It shows our commitment to continuous improvement and producing great work.

An appraisal at Maturity Level 5 indicates that the organization is performing at an "optimizing" level. At this level, an organization continually improves its processes based on a quantitative understanding of its business objectives and performance needs. The organization uses a quantitative approach to understand the variation inherent in the process and the causes of process outcomes.

Management Commentary

"Achieving CMMI Level 5 is a proud moment for DRC Systems. It reflects the dedication of our teams, the strength of our processes, and our constant focus on quality, innovation, and continuous improvement. This milestone strengthens our commitment to delivering reliable, scalable, and future-ready solutions for our clients worldwide."

— Says DRC Systems
